

Choose Hubert

To The Editor:

Finally Wyckoff has a choice. For as many years as I can remember, in each election for Township Committee, there have been only hand picked candidates from one party. In other words, voters had no choice. Recently, it has become sadly clear to many of us attending Township Committee meetings that some elected officials seem more inclined to lecture attendees on how they see things, rather than truly consider another point of view. The Open Space initiative is a prime example of this closed mindedness. This year Wyckoff has a wonderful alternative, Brian Hubert. Brian brings a lot to Wyckoff. He has years of productive service as an elected official in another Bergen County community. Brian has been actively involved in our community during the six years he and his family have lived in Wyckoff. He supports what Wyckoff citizens want in both careful management of our tax dollars and finding innovative ways to secure alternative sources of revenue outside of Wyckoff. Brian has been actively supporting and speaking out in favor of the Open Space Initiative and working to preserve Wyckoff's character and quality of life. In short, he proposes to work in a bipartisan manner to improve our community, listen to the concerns of our residents, and bring new energy and fresh ideas to local government. I urge all Republicans, Democrats and Independents to vote for Brian Hubert and make a change for the better. Be there on November 7th.

Richard Lynch
Wyckoff
